CONTROL COMPANY

SECURE MDU ENCLOSURES

# MDU ENCLOSURES

PROVIDES THE HIGHEST DEGREE OF SECURITY

## NGHCQ

HINGED  
COVER

**NGHCQ** is a closed back enclosure that features sliding hinge brackets that allow the cover to remain attached to the box while keeping it out of your way during installation. This box is standard with our quick-close lock to ensure utmost security and installer satisfaction.

Typical sizes range from 12x12x8 to 24x24x9. Custom sizes are available.  
Most popular sizes:

HEIGHT	WIDTH	DEPTH
12	12	8 or 9
13	12	8 or 9
18	12	8 or 9
18	18	8 or 9
23	13	8 or 9
24	18	8 or 9
24	24	8 or 9

## UNSURPASSED SECURITY

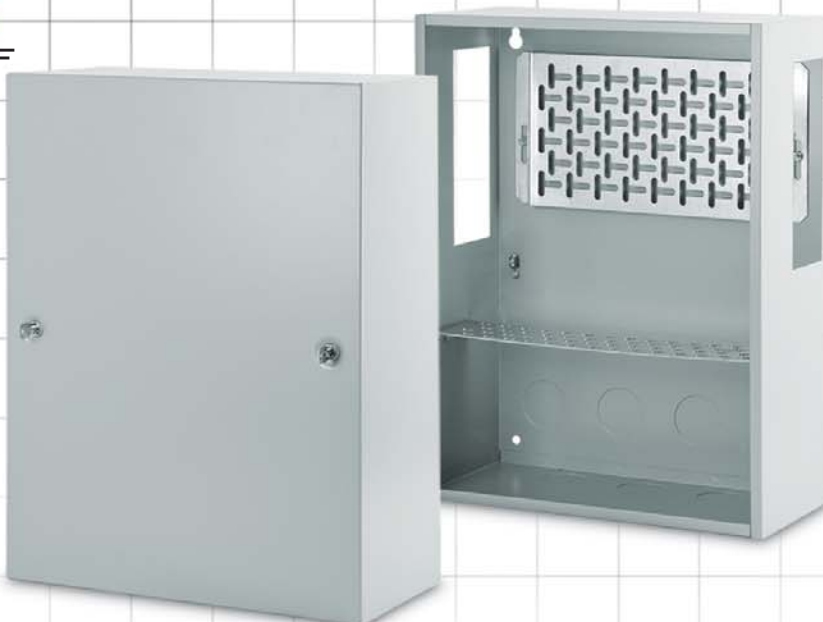

- **N•R•G** offers a variety of individualized locks with secure, private-key configurations
- We monitor the various key codes in your area to ensure a superior degree of security

## ELIMINATE LOSSES

- Your commitment to using an **N•R•G** security box will prevent losses caused by illegal entry of your MDU box

## NG

LIFT-OFF  
COVER

**NG** is a closed back enclosure that features a lift-off cover that can be completely removed for installation. The NG style cover is standard with (2) cylinder locks to provide the highest degree of security.

Note: The quick-close lock is also available on the NG.

## FEATURES

- Drain holes to keep out moisture
- U-shaped knockouts to accommodate PVC conduit
- Ground lugs
- Variety of sizes, materials, colors, locks and accessories
- Bridge lances for wire management

## CONSTRUCTION

- Heavy 15 or 16 gauge mill-galvanized steel with baked on polyester powder coat finish to ensure high corrosion resistance
